RE: Garling Construction

To whom it may concern,

I have worked with Garling Construction on numerous bid projects over the past three years and I have enjoyed working on each project with them. Their attention to schedule, costs / budget, and details make them effective partners during the construction projects. They are reasonable and easy to work with. As issues arise, they assist in solving problems in a timely manner. Garling has always performed at a level that has met the owner's expectations, and has performed well under some very high-pressure timelines. They have always been willing to understand the Owner's requirements and work diligently to meet those requirements.

I would highly recommend consideration of Garling Construction for your project.

Respectfully,

SHIVE-HATTERY, INC.
